spacial eye catchers

# Mineral composite panels by 3DWallddecor

Experience our brand-new 2014 collection of rock-hard dimensional wall panels

## Collection 2014

Moonscape

Diamond

Folds

Facet

## Safe and durable

3DWallddecor mineral composite panels are not only impact-proof but also fully fire resistant with no smoke development and zero flame spread rating. Next to that these panels will not expand, shrink, or yellow over time.

## Healthy environment

For centuries, the properties of gypsum have been highlighted: hygrometric regulation, fire resistance, soundproofing. It is now widely recognized as a harmless material according to health regulations and also environmentally-friendly.

## Versatile eye-catchers

These easy-to-install tiles have a seamless surface and a perfect automatic pattern repeat, and can be painted in any colour. Relatively light weight due to hollow backside composition and still very strong due to glass fiber reinforcement.

3DWallddecor pure white mineral composite panels are designed in The Netherlands and made in France to be a green, durable, fire-safe and modern high-end interior product.

Hollow backside

## Applications

3DWallddecor mineral composite panels are recommended for following areas:

Office buildings

Housing

Hotels

Public space

Bars, restaurants

Shops
